

## WIT Lebanon Shines in Visit with U.S. Congress

Nada Hamzeh with U.S. Ambassador Michele Sisson at WIT Lebanon Graduation, September 2009

WIT Lebanon Program Manager Nada Hamzeh was honored to meet with a delegation of distinguished U.S. Congress members who visited Lebanon in November 2009 to strengthen partnerships with the Lebanese Parliament.

Nada was selected by MEPI (Middle Eastern Partnership Initiative) to share the achievements of the WIT Lebanon program and its impact on Lebanese communities. She was one of only twelve NGO representatives from Lebanon invited to speak. The meeting, attended by the U.S. Ambassador to Lebanon, Ms. Michele Sisson, was a great success and gave the U.S delegates insight into the initiatives of the local NGO community. The presentations demonstrated how the funding from U.S agencies has positive impact on local communities. After the presentation, Nada said that the delegates “were proud to hear about the success of the project and encouraged me to continue in my endeavors for Women in Technology”.
